

- A. Take a sentence as an input and reverse every word in that sentence. a. Example - This is a sunny day > shiT si a ynnus yad.

```
Ans=> function reverseWords(sentence) {  
    // Split the sentence into words  
    var words = sentence.split(' ');  
  
    // Reverse each word  
    for (var i = 0; i < words.length; i++) {  
        words[i] = reverseWord(words[i]);  
    }  
  
    // Join the reversed words back into a sentence  
    var reversedSentence = words.join(' ');  
  
    return reversedSentence;  
}  
  
function reverseWord(word) {  
    // Reverse the characters in the word  
    var reversedWord = "";  
    for (var i = word.length - 1; i >= 0; i--) {  
        reversedWord += word[i];  
    }  
  
    return reversedWord;  
}  
  
// Example usage  
var inputSentence = "This is a sunny day";  
var reversedSentence = reverseWords(inputSentence);  
console.log(reversedSentence); // Output: "sihT si a ynnus yad"
```
